

Introduction

Master Seminar Applied Statistics [35802]
Applied Regression & Forecasting

Summer 2025

Chair of Statistics and Data Analytics
Prof. Dr. Harry Haupt

1.1 Important dates (1/2)

Introduction + explanations of the seminar

Presentation for download on the homepage of the chair from Friday, 09.01.2025 as well as in Stud.IP no. 35802.

Registration deadline (via chair & Stud.IP no. 35802, see upcoming slides)

Monday, 20.01.2025

Confirmation of admission by chair

until Friday, 24.01.2025, by e-mail to students

1.1 Important dates (2/2)

Initial meeting

Thursday, 24.04.2025, 15-16, Location: tba

Date of interim presentations

Thursday, 22.05.2025, 14-18, Location: tba

Date of final presentations

Thursday, 26.06.2025, 14-18, Location: tba

Deadline for submission of the term paper

Monday, 23.06.2025, 14 (at the chair)

Deadline for submission of presentation slides

Monday, 23.06.2025, 14 (by e-mail)

2. Goals and structure

Individuals or teams of two students conduct a scientific investigation of their own, usually based on recent research papers from leading international journals or chapters of a recent textbook, as specified by the chair.

As a result, students gain deeper insights into current practical and theoretical issues in econometrics, statistics and data analytics.

In addition, content-related and further methodological basics are taught, which are indispensable for the preparation of a Master's thesis in Statistics and Data Analytics.

Selection of participants.

If the seminar is "overbooked", unfortunately a selection of participants has to be made. This selection is based on the progress of the course and previous performance in statistics and its applications to finance, marketing, economics, etc.

Grading

Term paper (70%) + Presentation (30%)

Term paper

Approx. 12-15 pages of text (approx. 20-25 pages for teams)

(s. <https://www.wiwi.uni-passau.de/en/statistics/studies-and-teaching/student-projects>)

Presentation

Approx. 30 min (teams: 60 min) including approx. 10 min (teams: 20 min) discussion

4. Registration

1. Registration form available as pdf in Stud.IP (no. 35802).
2. Fill in the registration form: Enter all statistics, mathematics, and data analytics courses taken successfully to date.
3. Attach HISQIS excerpt.
4. Send registration form and EXA excerpt office.statistik@uni-passau.de

Deadline: Monday, 20.01.25!

Confirmation of submission until
Friday, 24.01.25 (by email)
